Landing Page Compliance Audit: 5 Join Pages (Meta Ads)

Audit date: 7 November 2026. Each site below has its own complete list of changes. Work through one site at a time, top to bottom. Nothing is listed only once for all sites, so you never need to look anything up elsewhere.

Before you start: three things that apply to every site

1. **Meta bans ads for CFD trading.** Meta's Financial Services policy (last updated 30 October 2026) says ads "can't promote Contract for Difference trading". Most retail forex and gold trading through brokers is CFD trading. If a Telegram group sends trade signals and sends members to a CFD broker that pays you commission, Meta treats the whole funnel as CFD promotion. Changing the landing page won't fix that. The changes below work only if each group is a free education community: market analysis, lessons and Q&A.
2. **Exclude the United States from every campaign.** Meta doesn't allow US investment ads, even educational ones, unless the advertiser is a verified broker or licensed adviser. It also doesn't allow them to push people into direct messages such as Telegram, WhatsApp or Messenger.
3. **Meta reviews the landing page and what comes after it.** The ad, the page and the Telegram group must all say the same thing.

How to read the tables: **Must fix** means fix before any ad runs. **Recommended** means it lowers the risk of rejection or account review.

Site 1: arthurfxrev.com/join (FX Revolution, French)

Risk today: High. Short page with mild copy, but it advertises gold signals, has no legal or privacy pages, shows its disclaimer only in English and sends visitors through an unbranded redirect link.

What to change

#	Area	What's there now	Change to	Priority
1	Telegram group	Page promises "Signaux Gold" (gold signals)	Make the group education-only: analysis, lessons, Q&A. No buy/sell signals, no broker sign-up links, no profit screenshots or "members made €X" posts in pinned or welcome messages. Add the French risk warning (below) to the group description.	Must fix
2	Line under the headline	"Signaux Gold. Formation. Communauté. Accompagnement."	"Formation au trading. Analyses de marché. Communauté."	Must fix
3	Body text	"Pas de promesses miracles. Pas de raccourcis. Une vraie méthode et une vraie communauté."	"Pas de promesses de gains. Pas de raccourcis. Une méthode et une vraie communauté."	Recommended
4	Main button link	Goes to mvrdb.tg.christmas (an unbranded tracking redirect)	Link straight to the Telegram group (t.me/...), or to a page on your own domain such as arthurfxrev.com/telegram. Meta's Spam policy prohibits deceptive links, and a random domain looks like one.	Must fix

#	Area	What's there now	Change to	Priority
5	Text under the button	None	"Tu seras redirigé vers notre groupe Telegram."	Recommended
6	Second button	"M'envoyer un message"	Remove. Meta restricts investment ads that push direct messaging.	Must fix
7	Trustpilot badge	Static "Excellent" image linking to fx-revolution.com, a different domain from this site	Use Trustpilot's official live widget for this brand's own profile, or remove the badge. Never show a fixed rating.	Must fix
8	Brand name	Logo says "forex revolution", page and title say "FX Revolution", domain is arthurfxrev.com	One brand name everywhere: ad, Facebook Page, logo, page title, Trustpilot profile and legal notice.	Recommended
9	Disclaimer	English "Income Disclaimer" starting "Results shown from students and ourselves are not typical..."	Replace with the French risk warning below. Remove the "Results shown" sentence: the page shows no results and shouldn't.	Must fix
10	Facebook notice	English, refers to "Facebook™ Inc."	Replace with the French Meta notice below (Facebook is now owned by Meta Platforms, Inc.).	Recommended
11	"Free" and broker commission	"Commence gratuitement" with no explanation of how the business earns money	If a broker pays you commission, add the French affiliate disclosure below next to the button. If members must fund a trading account, say so.	Must fix (if a broker pays commission)
12	Legal notice	None	Add a "Mentions légales" page (required by French law): company name, legal form, registered address, registration number, publication director, contact email and hosting provider.	Must fix
13	Privacy and cookies	No privacy policy, no cookie policy, no consent banner. The page runs Meta Pixel tracking and server-side tracking (sst.arthurfxrev.com).	Add "Politique de confidentialité" and "Politique de cookies" pages naming each tracking tool, plus a consent banner (for example Cookiebot, Complianz or CookieYes) that blocks the Pixel until the visitor accepts.	Must fix
14	Page language setting	Page code says lang="en-US"	Set to lang="fr-FR" in WordPress settings.	Recommended
15	Link preview text	The preview shown when the link is shared still contains "Signaux Gold"	After changing the text, update the page's meta description (for example in Yoast or Rank Math) so the preview matches.	Must fix

Site 5: realnate.com (FX Culture, English)

Risk today: Very high. Rebuild needed. This page shows profit amounts, P&L screenshots, win rates, accuracy testimonials and an earnings video, and its disclaimer confirms members trade CFDs through a broker that pays the site commission. Remove everything marked "Remove" completely.

What to change

#	Area	What's there now	Change to	Priority

#	Area	What's there now	Change to	Priority
1	Business model	Disclaimer says members trade CFDs ("79,5%-89% of retail investor accounts lose money when trading CFD's") and the site earns broker affiliate commission	Meta bans ads for CFD trading. If the funnel leads to a CFD broker, this page can't be the destination of a Meta ad, whatever else changes. Advertise only an education-only community with no broker sign-up in the funnel.	Must fix
2	Telegram group	"Premium" signal group; members "took the exact same trade"	Make the group education-only: analysis, lessons, Q&A. No buy/sell signals, no broker links, no profit screenshots. Add the risk warning to the group description.	Must fix
3	Page title and link preview	"Premium Forex Signals & Analysis - thefxculture"; preview includes "Learn & Profit" and "Learn & earn"	Title: "FX Culture: Free Trading Education Community". Update the meta description to match the new hero text.	Must fix
4	Hero headline	"Join My Free Trading Community And Learn & Profit From My Trading Ideas Daily"	"Join My Free Trading Community and Learn From My Daily Market Analysis"	Must fix
5	Hero video (FINAL-VSL-ROUND-2.mp4, 3 min 13 s)	On-screen text includes "$4,933", "Consistently making $38,537", "build an income", "copy my trades", a "£405" P&L screenshot and a Ferrari and Dubai lifestyle montage	Remove. Replace with a new video: Nate explains what members learn, how the community works and the risks of trading. No amounts, account screenshots, cars or lifestyle shots. The last frames also show "NEW OVERLAYS EACH MONTH", which looks like a stock-template watermark, so check the template licence.	Must fix
6	Hero bullets	"75,000 students from around the world" · "Everything is 100% free" · "1-1 support available 24/5" · "Learn & earn at the exact same time"	"[one verified number] community members" (the page also says "over 60,000") · "Free to join. Trading needs a funded broker account (see FAQ)" · "Support available Monday to Friday" (only if true) · remove "Learn & earn"	Must fix
7	"What you receive for free?"	"Copy my exact trading ideas" plus five other points	Replace "Copy my exact trading ideas" with "My daily market analysis, explained step by step". Keep the other five points.	Must fix
8	Testimonials	Five quotes about signals: "most consistent in terms of accuracy", "turned my trading around", "game-changer", "reliable and accurate". One quote appears twice.	Remove. Use only real, verifiable reviews about learning, clarity and the community. Never accuracy, profits or results.	Must fix
9	Trustpilot blocks (three on the page)	Static "Rated 4.9 / 5 Based on 1000+ reviews" linking to thefxculture.com	Use Trustpilot's official live widget for this brand's own profile, or remove. Never a fixed rating or review count.	Must fix

#	Area	What's there now	Change to	Priority
10	"Community Member Results" carousel	12 slides of Telegram chats with banners such as "Ivan, Profit: €44,000+", "Jacobs Adams, Profit: €23,000+", "Estefanos Michail, Profit: €7,000+". The chats show P&L screenshots, "87% win rate", "get out of the rat race", "financial freedom" and a holiday paid by trading.	Remove the whole section. This is the biggest rejection risk across all five sites.	Must fix
11	"Real Students, Real Results, Real Success Stories"	Six video testimonials labelled "Premium member of FX Culture Trading"	Remove. "Premium member" also contradicts "100% free". If you want testimonials, re-record them about what members learned, with no amounts or results, labelled "Community member".	Must fix
12	Photo of Nate	Seated in a luxury boutique, watch in focus	Replace with a neutral photo: desk, charts, office or plain background.	Must fix
13	Phone chat image (Iphone-1.png)	"secured my profit... £130", "That's a days wage for me all before 10am"	Remove.	Must fix

15	"Take A Look Inside My Trading Community"	Gold trade story: "my biggest ever trading day", "my members also took the exact same trade... a double win"	Remove. Replace with the "Inside the community" copy below.	Must fix
16	"Advantages " list	"Increase your chances of success by surrounding yourself in an environment where you can prosper & gather information at an exponential rate"; "Full transparency and Access to my trading ideas"	Remove the "Increase your chances of success" point. Change "Full transparency..." to "Access to my daily market analysis". Keep risk management, reduced isolation, ebooks and courses, mentor.	Must fix
17	Button under the list	"Get all of this value for completely FREE"	"Join the free community"	Recommended
18	FAQ 1 "What is Forex?"	Example ends "you have earned an extra €10"	Add: "Exchange rates can just as easily move against you, which would mean a loss."	Must fix
19	FAQ 2 "What's the difference with Premium signals?"	"We are the only premium forex signal provider..."	Remove the whole question. "The only" can't be proven, and "signal provider" contradicts the education positioning.	Must fix

#	Area	What's there now	Change to	Priority
20	FAQ 3 "Do I need experience?"	"You do not need any prior experience... The best way to learn is by actually doing"	"No. The community is built for beginners too. We recommend practising on a demo account before risking real money."	Must fix
21	FAQ 4 "Why do I need a broker account?"	"If you need a good broker, please contact us for advice."	Remove the broker recommendation (see row 1). If it stays, add: "If you open an account through our link, we may receive a commission from the broker. Choose a broker regulated in your country."	Must fix
22	FAQ 5 "How much do I need to start?"	Minimum €400/$450 in a trading account	Keep, and state it near the first "Join for free" button so "free" isn't misleading.	Must fix
23	FAQ 6 and footer disclaimer	Titled "Terms of conditions", generic "79,5%-89%" CFD range, typos ("his site", "We Do not")	Rename to "Risk warning" and use the risk warning below. Fix the typos. Shown twice in the footer: keep it once.	Must fix

Hero headline: Join My Free Trading Community and Learn From My Daily Market Analysis

Hero bullets: [verified number] community members · Free to join. Trading needs a funded broker account (see FAQ) · Support available Monday to Friday · Beginner-friendly lessons

Button: Join the free community

Under the button: You'll be taken to our Telegram group.

What you receive: Access to the community · My daily market analysis, explained step by step · My market breakdowns · My risk management approach · For beginners and experienced traders · Support Monday to Friday

Who Am I: I'm a day trader based in Dubai with over eight years of experience in the financial markets. Early on I struggled with risk management and with managing my emotions, so I built FX Culture to share what I've learned. Every day I post my market analysis and explain the reasoning behind it. Trading involves risk, and I have losing trades like everyone else.

Inside the community: Each day you get my analysis of the markets I'm watching, the reasoning behind each setup and the risk I'd consider. You can ask questions, learn from other members and work through the ebooks and courses at your own pace.

Risk warning: Trading foreign exchange and other leveraged products carries a high level of risk and may not be suitable for everyone. You can lose more than you invest. Past performance is not indicative of future results. FX Culture's content is for education only and is not investment advice.

Affiliate disclosure (only if a broker link stays): We may receive a commission from a partner broker if you open an account through our links. It costs you nothing extra.

Ad targeting for this site

- Exclude the United States. Age 18+.
- The United Kingdom, Ireland and Australia are on Meta's verification list. The UK also requires financial promotions to be approved by an FCA-authorised firm. Don't target these countries without verification and legal sign-off.

Questions the client needs to answer

1. What happens inside each Telegram group: education and analysis, trade signals, or both?
2. Do the brands earn commission from a broker, and is it a CFD broker?
3. Which countries does each campaign target?
4. Which company operates each brand, and are Arthur, Toro, Salvo, Luca and Nate real people who run them?
5. Are the Trustpilot profiles the brands' own, and what is each live score?
6. Is joining actually free, and is a funded broker account needed to take part?

Scope and limits
